Name and address of employer	UNCW Technology Research Assessment and Services, Wilmington, North Carolina, United States
Business Sector	Education

Skills and competencies

Social skills	- Team work: various sports teams, some for several years. I have been captain for both football and soccer teams. - Mediation and negotiation: I have worked in several positions that placed me directly in front of angry customers. I could normally bring about mutually beneficial mediations. - Public speaking: I have done very well in several extemporaneous speaking and debate competitions. - Management: I have been in charge of teams for various tasks. For example, I was placed in charge of my department when processing used computers for return. I created and executed a work flow that allowed us to gather, wipe, and prepare over 250 computers for shipment each day. Previously we could only process about 30 computers per day. This saves the university over $5,000 each year.
Organisational skills	- Public Events: I have assisted with preparation and introductions for business expositions.
Technical skills	- Routing, capping, and repair of ethernet cables. Basic knowledge of fiber repair. - Troubleshooting, repair, setup, and training for desktops, laptops, thin-clients, and peripheral hardware. - Setup, troubleshooting, and repair of servers, clusters, and networks.

Computer skills	Operating Systems: MAC OS/X 10.2+ , Linux/UNIX(Ubuntu, Android, Chrome OS, RockBox, RedHat, SUSE, and various other flavours in both server and desktop versions) , BSD (netBSD and freeBSD) , Windows 95+ (including server editions) , IBM z/OS (Master the mainframe competition), briefly tested others not listed
	Languages: C++, JAVA, AspectJ, JavaScript, PHP, C#, Visual Basic .NET, Prolog, MASM, Bash, BASIC, LISP, T-SQL, SQL, Fortran, Go, Tiny, Python, (HTML, XML, XSML, CSS), briefly tested others not listed
